

Petalburg Woods

Move Needed: HM01 (Cut) for the eastern half

The woods join the northern and southern halves of Route 104, and they are the first place this game shows its hand. Four Mega Stones lie in here, more than any other early map, and the wild list is twice the length of the route outside. Bring Poké Balls and a second Pokémon: the Aqua grunt in the middle of the wood fights a double battle.

ITEMS

- Scolipite
- Heracronite
- Butterfrenite
- Lopunnite
- Net Ball (hidden)
- Net Ball (hidden)
- Nest Ball (hidden)
- Leaf Stone (hidden)

POKÉMON APPEARANCES

POKÉMON CONDITIONS

Shroomish	Common
Slakoth	Common
Heracross	Uncommon
Caterpie	Uncommon
Buneary	Uncommon
Pichu	Uncommon
Pineco	Rare
Foongus	Rare
Burmy	Rare
Blipbug	Rare
Ferroseed	Rare
Sewaddle	Very rare
Audino	Rustling grass
Pikachu	Rustling grass
Crustle	Rock Smash
Dwebble	Rock Smash

Wild levels run 6 to 8 in the grass, and 5 to 16 out of smashed rocks, which is above the grass all through this map.

THE FOUR STONES

STONE	WHERE	NEEDS CUT	MEGA IT MAKES
Scolipite	Far east, past the cut trees	Yes	Mega Scolipede
Heracronite	Centre of the wood	No	Mega Heracross
Butterfrenite	North-west corner	No	Mega Butterfree
Lopunnite	Western track, south end	No	Mega Lopunny

A stone is invisible until Steven's bracelet is yours, so a first pass through here before Rustboro will walk past all four. Come back with the Mega Ring.

PETALBURG WOODS END TO END

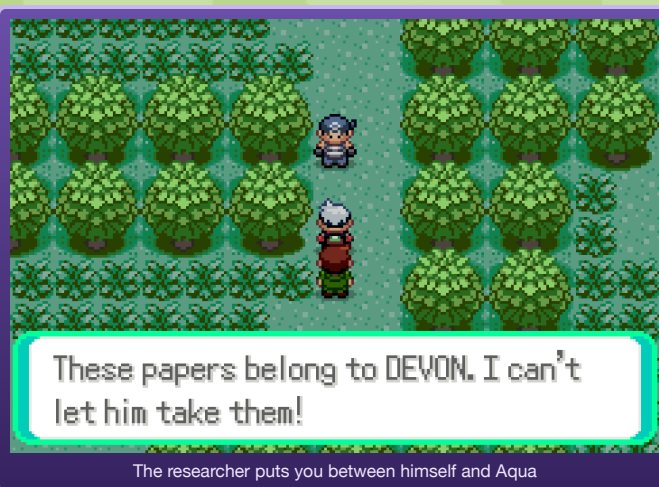

Four viewpoints, stitched in order of travel, south entrance to north

Event 1: The Devon Researcher

Step onto the clearing north of the southern entrance and a Devon researcher stops you. He is carrying survey records back to Rustboro and would rather talk about Shroomish. Let him finish.

Event 2: Team Aqua Takes the Papers

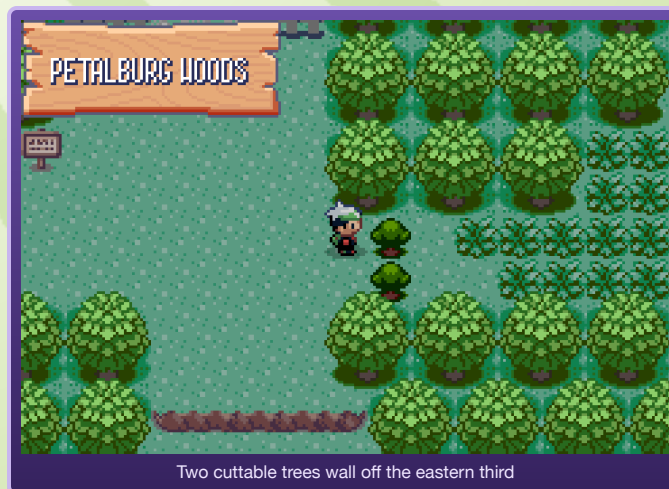

An Aqua grunt walks in behind the conversation and demands the Devon papers. The researcher retreats behind you, which is how

NOTE

None of the three starters learns Cut, so the eastern third of these woods, and the Scolipite in it, stays shut until you catch something that can. A Shroomish from this very map will do.

Event 3: Cut Opens the Deep Wood

Come back with HM01 and the trees at the middle of the map come down, opening the path east to the deep wood and the Scolipite beyond it. The same passage drops you back onto a corner of Route 104 you could not otherwise reach.

TIP

Rock Smash pulls Pineco, Dwebble, Crustle, Ferroseed and Heracross out of the boulders here, at levels 10 to 16 while the grass is still handing you level 6. It is the fastest way to get a real Pokémon before Rustboro.
